Project major modifications
2026 calendar for submission to the Steering Committee

According to the Programme rules on project modifications, major modifications require the approval of the Steering Committee. If no meeting of the SC is planned, major modification requests will be submitted for approval to the SC through a written procedure. Specific written procedures for major modification requests are initiated quarterly, in March, June, September, and December. Each year, an exact calendar is defined in advance and communicated to the SC members and published on the programme website. Decisions are taken following the SC's decision-making rules. Any request is therefore put on the SC agenda if all relevant information is made available at least four weeks before the scheduled SC decision date.

Date availability of all documentation to be submitted to the MC	**SC decision date**	Comment, if any.
27 February 2026	27 March 2026	Written procedure
29 May 2026	26 June 2026	Written procedure
4 September 2026	2 October 2026	Written procedure
20 November 2026	18 December 2026	Written procedure
